Deep Beneath...

INGLEBOROUGH HILL...

...in the Yorkshire Dales National Park, lies the **longest show cave** in Britain. White Scar Cave is a hidden world, which has been sculpted by nature over thousands of years.

It is a significant part of our natural heritage.

Since the cave was opened in 1925, visitors from around the world have been enthralled by the delicate beauty of this underground realm. You will be accompanied by an expert guide through a spectacular subterranean landscape.

The path winds its way past cascading waterfalls, and between massive blocks of flowstone, to an immense ice-age cavern adorned with thousands of stalactites. This is the Battlefield Cavern, discovered in 1971.

**WE LOOK FORWARD
TO WELCOMING YOU.**
